

## Laparoscopic Ileal Pouch Anal Anastomoses for Inflammatory Bowel Disease (Ulcerative Colitis)

**Operating Surgeons:** Dr. Nitin Patel, Dr. Madhavan Iyenger,  
Dr. Arpan Shah & Dr. Rahul Damor

A male patient aged 26 years presented to the Department of GI Surgery at Parul Sevashram Hospital. On diagnostic investigations, Patient was found to be suffering from Severe Acute Ulcerative Colitis

Patient was operated for **Laparoscopic Ileal Pouch Anal Anastomoses**. This entails the creation of Neo-Rectum called J Pouch with preservation of Reproductive & Sexual Functions.

Patient's post operative stay was uneventful & mentions about his improved quality of life on regular followup
